

Hello. My name is Cory W. I am thirteen years old and I am in seventh grade. I have been wearing hearing aides since I have been 2 years old. My mom has allowed me to start changing my own hearing aid batteries since I have been 11 years old. I really like the new EZ Change battery holder. I used to drop them all the time and my mom would get mad when we couldn't find them because she would think maybe the dog would eat them or get angry when it would roll under the stove or fridge. With the new EZ Change, I don't drop batteries anymore. It is so much easier for me. I like it much better. My mom likes it better too.

Thank you Energizer for making things easier for me.

Sincerely,  
Cory Wallace
