

# Banner Order Form

**Change Your Clock Change Your Battery®** is a national home fire safety program sponsored by the International Association of Fire Chiefs and Energizer® batteries. Working with fire departments across the country, the program educates families about the lifesaving habit of changing their smoke alarm batteries when changing their clocks during daylight savings.

**New in 2008!** The banners feature a new double-sided design this year. One side features the *Change Your Clock Change Your Battery* program logo and the text. The other side features the logo for the new family safety plan *Power Through it All™* for use during the spring and summer to remind families to stay safe and prepared for natural disasters such as hurricanes and other severe weather. The banners are available to you at cost for use to display at events, at your station or on your trucks. These banners serve as an extra reminder and give you an added way to reach your community. Banners are colorful and made with heavy-duty, durable vinyl and are weather resistant for long life and frequent use. The banner is 4-feet tall and 10-feet wide. Banners come with rope attached for easy tying.
