

Banner Order Form

Now in its 24th year, **Change Your Clock Change Your Battery**[®] is a national home fire safety program sponsored by *Energizer* and the International Association of Fire Chiefs. Working with fire departments across the country, the program educates families about the life-saving habit of changing their smoke alarm and carbon monoxide detector batteries when changing their clocks back from daylight-saving time.

The banners feature a single-sided design with the *Change Your Clock Change Your Battery* logo and text. Banners are available to you at cost for use to display at events, at your station or on your trucks. These banners serve as an extra reminder and give you an added way to reach your community. Banners are colorful and made with heavy-duty, durable vinyl and are weather resistant for long life and frequent use. The banner is 4-feet tall and 10-feet wide. Banners come with rope attached for easy tying.
